HANDLING OF MODELS

1. It may become necessary for contest personnel to adjust placement of models on the display tables due to the varying amount of entries received in the contest categories.
2. During judging, some judges may find it necessary to pick up a model to inspect its underside. If a modeler does not want the entry to be handled by the judges, note this on the entry form.
3. Although not required, it is strongly recommended that models be firmly attached to a base.
4. Handling of models by contest personnel will be kept to an absolute minimum.
